

XINXING JIHUA
INTERNATIONAL TRADING CO.,LTD.

MILITARY SUPPLIES

THE LARGEST MANUFACTURING R&D BASE IN CHINA

XINXING JIHUA International Trading Co.,Ltd. is a state-owned exporting company attached to Xinxing Cathy International Group, which is one of the global fortune 500 enterprises. The headquarter is located in Beijing, the capital of China. As the only export enterprise of military supplies with dozens of manufacturing factories in China, being committed to the manufacturing of military and police equipment and textile garments, XINXING JIHUA is an export enterprise to export military supplies that is approved by the Chinese government and the PLA, with the authorized certificate to export military equipment. Its affiliates have about 40,000 employees, and factories are all over the country, the main products are military uniforms, military shoes & boots, bulletproof vests, bulletproof helmets, camouflage nets, tents, police equipment, anti-riot suits, functional vehicles, medical protection suits, as well as other kinds of professional clothing.

Introduction

The company boasts a complete industrial chain for military supplies, including raw materials, textile processing, printing and dyeing, research and development, manufacturing, etc.. The organic coordination among all steps of the industrial chain, the stable supply of high-quality raw materials and the whole-process control of production, have secured the quality of products to the utmost.

The largest **MILITARY UNIFORM** manufacturing R&D base in China

Full industry chain of **MILITARY & POLICE EQUIPMENT** in China

Full categories of **MILITARY BOOTS & SHOES** in China

Cooperation & Opportunity

XINXING JIHUA

MILITARY EXPORT COMPANY

With military export rights authorized by Chinese government and PLA

We have a whole industry chain of producing logistic military equipment, a perfect system of quality management, an environmental protection system, an occupational health and safety protection system. In overseas markets, XINXING JIHUA International has maintained partnership with more than 100 other countries for years, and its high-quality products and excellent services are highly praised and well accepted by many foreign customers. In the future, it will extend the products trading into in-depth cooperation with overseas customers, such as establishing joint-venture factories and overseas R & D centers. By providing customers with advanced equipment, latest technology, business management, personnel training and other services, the company strives to build a world-class brand with global competitiveness.

Product name

Tactical Uniform

Features

- Shell uniform consist of four parts, jacket, trousers, inner sweater and belt. It is a garment that provides protection from cold, rain and wind and wear by military staff, soldiers during the cold season in forest area.
- The product is made of three-layer laminated dyed and printed in mosaic specific colour. The base material is 100% Polyamide fabric with ePTFE membrane, the back side is made of polyamide tricot with waterproof treatment.
- Keep unchanged functional characteristics, shape, size and color throughout duration of use. Allow the wearer maximum mobility in terms of performance in dynamic. Ensure IR protection. Provide effective thermal insulation resulting for the wearer.

Product name
Bullet proof vest (Full)

Designed for

Military, police, special forces

Ballistic material

Aramid UD fabric /aramid woven fabric

Performance

Up to NIJ0101.06 LEVEL IV by using hard armor plates. At request can be supplied with super thin composite ballistic panel of NIJ0101.06 IIIA LEVEL. Anti-stab protection on demand.

Features

- Fully MOLLE mounting surfaces.
- Multi-point adjustability by strengthened webbing and buckles
- Adjustable shoulder straps with collar support system
- Durable Nylon 6.6 construction
- Padded mesh interior lining

Color

Product name
Bullet proof vest

Ballistic material

aramid UD fabric/Aramid woven fabric.

Performance

NIJ0101.06 LEVEL IIIA upgradable to LEVEL III/IV by adding hard armor plates.

Designed for

Special military operation, army

Features

- The most classic tactical style with MOLLE system surrounded
- Adjustable shoulder and waist
- One point release system enabling quick easy doffing in emergency situations
- Super reinforced drag handle
- Extended, adjustable, foam-padded shoulder straps
- Customized pouches attachable for multipurpose
- Non-abrasive Velcro tapes
- Integrated front flap external cummerbund closure

Color

Product name
Boots

black officer shoe for army military and police

- high-grade full grain cow calf , black color
- high-quality cow leather lining, sweat-absorbent breathable
- foamed rubber outsole, light weight anti-slip and abrasion resistant

white officer shoe for army military and police

- high-grade full grain cow leather white color
- high-quality cow leather lining, sweat-absorbent breathable
- rubber outsole, anti-slip and abrasion resistant

military honor guard boot showing the magnificent and mighty of the soldier

- high-grade full grain cow leather, black color
- high-quality cow leather lining, sweat-absorbent breathable
- foamed rubber outsole, light weight anti-slip and abrasion resistant

Desert boot for army military

- suede cow leather , genuine leather + cotton fabric water repellent
- cotton fabric sweat-absorbent breathable
- rubber outsole, anti-slip and abrasion resistant
- YKK zipper for quickly putting on or taking off

Product name
**Bulletproof
helmet**

Ballistic material

Multi-layered woven aramid composite matrix

Performance

NIJ STD 0106.01 LEVEL IIIA V50>650m/s;outstanding STANAG 2920 sharpnel resistance and EN397 shock absorption performance.

Designed for

Police,military,special forces

Features

- The retention system consisting of 7 heat sealed durable, breathable and low absorbency memory pads
- Available in MICH HIGH CUT version featuring the advanced suspension system
- Easy adjustable harness with a leather lined chin strap, compatible also with optional 4-points suspension system. "H" type and "butterfly" type.
- Shape of the shell designed for easy usage of headset.
- Lightweight construction featuring self-distinguishing properties.

Product name
**Tactical
backpack**

- L32 W20H51
- 900D OXFORD
- CAPACITY: 40L

Features

- Quite simply the best tactical backpack on the market
- Roomy main storage area
- Dual zipping side pockets
- Hydration pocket
- Stuff-it pocket with integrated draw cord
- Reinforced grab and go handle
- Wrap-around MOLLE/Slick-stick web platform
- Three mesh admin compartments
- Zippered fleece-lined eyewear pocket
- Hook and loop name tape and flag patches

Product name
Tent

- This series of tents are developed for the public security participating in emergency actions to provide as offices, headquarters, meeting rooms, deformities, warehouses etc. and can even meet the requirements for dining, accommodation, toileting etc.
- The Tents carry two slope-roof frame structure which is reasonable and safe enough to sustain 6-scale wind.
- Tent Fabric is made of polyester oxford cloth with PU coating which is superior on tensile strength, tear strength, ageing and rainwater resistance.
- The color can be changed to Green, khaki, camouflage depending on the different environment.

Size can be changed for different usage:

- 12 m² tent is suitable for office and guarding.
- 24 m² tent is suitable for 8-10 persons' accommodation or warehousing.
- 60 m² tent is suitable for commanding ,meeting ,dining and accommodation.
- Toilet tent consists of four pedestal pans and three urinals, available area is 15.6 m² .

Product name

Anti Riot Fibre Shield

Material: Ultra-high molecule fibre

Size: 900*500*3mm **Weight:** 2.6kgs

Performance: Resist back-and stab from knife, strike from steel baton even in the environment of 40°C below zero.

Product name

Multi curve plate

TYPE	VGSP-3E ICW	VGSP-3E SA	VGSP-4E ICW	VGSP-4E SA
Protection level	NIJ III ICW	NIJ III SA	NIJ IV ICW	NIJ IV SA
Specification (mm)	250*300-19	260*300*20	250-300*22	250*300*24

CTN size(cm): 62*55*30

Product name
**Canned
stewed beef**

Specifications: 55%*340g*12 cans/box; 55%*397g*12 cans/box

Ingredients: Beef, water, corn starch, edible salt, sugar, mono sodium glutamate, white pepper, food additives

Grade: Excellent

Net weight: 4.08kg, 4.764kg

How to use: Open the can and eat it, and eat it after heating.

Warranty period: 36 months

Storage conditions: room temperature, ventilated and dry

Product name
**13 compressed
dry food**

Specifications: 250g*48 bags/carton

Additives: wheat flour, palm oil, whole wheat flour, white granulated sugar, glucose, wheat hydrolyzed protein, whole milk powder, sesame powder, soy protein powder, salt and pepper powder, baking soda, compound minerals, complex vitamins

Flavors: Original, Lemon, Coconut, Onion, Floss, Pineapple, Salt and Pepper.

Grade: Excellent

Net content: 12kg

How to eat: Open bag ready

Warranty period: 12kg

Storage conditions: Open bag ready

Product name

Braised beef fried rice set (self-heating)

Specifications

360g*12 bags/box

Meal details

300g braised beef fried rice canned, 40g spiced diced canned, 20 delicious mustard canned.

Ingredients

Braised beef fried rice canned

Rice, water, beef, carrots, vegetable oil, corn kernels, onions, green beans, edible salt, brewing soy sauce, rice wine, spices, mono sodium glutamate, white granulated sugar.

Spiced meat canned $\geq 95\%$

Pork, onion, starch, vegetable oil, brewing soy sauce, white sugar, salt, mono sodium glutamate, spices. Delicious canned mustard, Mustard, mono sodium glutamate.

Grade

Excellent

Net weight

4.32kg

How to eat

Braised beef, fried rice, and canned food, no flame, self-heating instructions, open the bag after heating, and other bags are ready to eat.

Place of Origin

Qinhuangdao, Hebei, China

Brand

Beidaihe

Warranty period

24 months

Storage conditions

room temperature, ventilation and drying

Product name

Night Vision Device

Performance

It is a mid-to-long-distance observation type binocular night vision device. The unique optical system enables instant observation without focusing. It is commonly used in military reconnaissance of uncertain target distances.

Features

- Multilayer optical system;
- Unique and innovative control system;
- Waterproof, anti-corrosion and dustproof;
- High-performance image tube;
- Allow connect to teleconverter to get higher magnification;
- Automatic switch sensor;

Item	Parameter	Item	Parameter
Mode	JH-OE-7001	Automatic Light Control	Yes
Magnification	5x	Infrared auxiliary light	Built-in
The field of view	20°	low-power and infrared lamp indicator	Built-in
Objective lens system	86mmF/1.2	Size	225mm*150mm*60mm
Focusing Adjustment Range	8m~ ∞	Weight	1500g
Exit Pupil	15mm	Battery	1 * (CR123)
eyepiece adjustment diopter	+5, -4	Duration time of use (infrared off)	40h

Night Vision Device (Head Mount)

Product name

Performance

This binocular head-mounted night vision device is a compact and lightweight binocular night vision system. Independent power control, it can be used separately for monocular. It utilizes two high-performance image intensifier tubes to provide very clear images in the darkest conditions.

Features

- The dual-channel design provides sharper visual effects and clarity;
- The built-in infrared light function allows users to adapt to a completely dark environment more conveniently;
- The multi-grade image enhancement tube configuration design makes this night vision device suitable for different budgets and tasks;

Item	Parameter	Item	Parameter
Mode	AN/AVS-31	Size	115mm*62mm*42mm
Magnification	1x	Weight	700g
The field of view	40°	Objective lens system	F1.2, 27 mm
Focusing adjustment range	0.25m ~ ∞	Working Temperature	+40-- 50°C
eyepiece adjustment diopter	-5 ~ +5	Battery	2*CR123

Product name

Military Tactical Goggles

Features

1. Impact-resistant lenses, meeting the military's anti-fragmentation requirements, the lenses can be quickly replaced according to the combat environment;
2. 100% UVA/UVB ultraviolet protection;
3. The lenses are coated on both sides, the outer layer is super hard and wear-resistant, and the inner side is long-lasting anti-fog;
4. Using ergonomic design principles, the overall design is comfortable to wear and can be worn for a long time;
5. Exquisite lens buckle design, the three-point lens buckle is firm and reliable, and the lens can be quickly replaced;
6. The nose pad is detachable, and the prescription frame structure can be changed according to the degree of myopia;
7. It can be adapted to helmets, night vision equipment and communication equipment;
8. The overall anti-impact design of the lens frame will not break after high-speed impact and avoid secondary damage;
9. Provide 3 functional replacement lenses: transparent lenses (cloudy and indoor), gray sunglasses (under strong light), yellow Lens (in low light environment)

Product name

Corner Shoot

Features

1. Be able to equip a variety of standard pistols, and meet the needs of different combat missions.
2. Functions of change-line-free, target tracking collimation capabilities, and adapted to the requirements of various tactical actions.
3. Functions of corner shooting with stability control and continuous optical zoom, aimed and shooting at a high-precision.
4. Be able to install tactic light, outside red dot laser indicator, night vision sight, and video / image transmission integration machine.
5. Achieved level, vertical targets observation with mutil-angle and video image wireless transmission.
6. Safety, reliability and strong environment adaptability.
7. With left and right operation, meets the needs of different user' habits.
8. Owing independent intellectual property rights.

Product name

Night Vision System Colour Low-light

Features

1. It can be used in low-light environment at night.
2. The video it takes are full colour and high definition which can be as evidence presented to court.
3. The color minimum illumination can reach 0.000001lux(one millionth)
4. Variable-focus professional photographic lens ((120-300 mm) with large aperture.
5. 7 inches full HD touch screen, SSD(Solid State Disk) hard disk video camera .
6. Portable integrated design, built-in high density lithium battery pack (working time \geq 3 hours)
7. It can recognize clearly the face and car plate number @ 500m away.
8. VR (Optional)
9. Laser supplement light (Optional)

Product name

Night Vision System Colour Low-light

Description

The Handheld Jammer is a kind of directional UAV(Unmanned Aerial Vehicle) jamming device, which is one of the popular jamming devices in the market.

The gun shape UAV jammer is a portable weapon against UAV, which is a great advantage, providing great flexibility and the opportunity to respond and protect quickly.

Features

- ▶ 2.4kg without gunsight, so it is easy to carry, fast operation, high efficiency.
- ▶ 4 frequencies emission (900MHz, 1.5GHz, 2.4GHz, 5.8GHz), suit to most civilian UAVs.
- ▶ Two Lithium Battery to ensure working for 2 hours.

Product name

Portable X-ray Scanner System

Description

This device is a light weight ,portable,battery powered x-ray scanning system designed in co-operation with the first responder and EOD teams to meet the need of the field operative. It is light weight and comes with user friendly software that helps operators in understanding the functions and operations in a less time.

Features

- Can be assembled rapidly on-site.
- Imaging plate using amorphous silicon technology,whose image is very clear.
- Can operate with remote control in the rear.
- Powerful image enhancement and Analysis tools.
- Intuitive interface,Image splicing infinite, simplicity of operation.
- User-friendly software.

Product name
Special Vehicle

Production introduction

It is modified from the 8-ton armored vehicle with American Ford F450 category. It chassis. It can completely resist the 56 type 7.62mm semi-automatic rifle ordinary bullet, and is equipped with monitoring systems, communications systems, riot systems and lighting systems, which can meet the seating requirements of 10 people.

technical parameters

- Unladen mass 1850kg
- Minimum ground clearance 340mm
- Boundary dimensions: 4000mm * 2250mm * 2420mm
- Wheel track: 1908mm
- Fording depth: 500mm

Use performance

- Four cooks can use it to make meals for serving of 250 people within 2 hours
- It is proper to use the diesel or gas stoves.
- Climate :sunny,rainy and snowy day
